STRUCTURAL SOUNDNESS / SAFETY CETIFICATE

I hereby certify that the existing school building located in the premises of New Millennium School campus located at Horamavu Agara, Bengaluru, is a typical RC framed structure with infilled masonry wall comprising of Ground plus four upper floors. It is reported that the above building was constructed in different stages i.e., ground to third floors in the year 2002 & fourth floor was added with light weight roofing system was added subsequently.

In our opinion, I certified that, the exiting "New Millennium School building" as it stands is structurally sound and safe. However, it is mandatory to follow instructions of Engineer in charge and fallow safety guidelines as per standard practice.

Thanking you, Yours faithfully,

JAGADISH/JS BE(Civil), M. Tech (Structures),
